Other bulbs available are: Blue Star Sea Hollies, Astibles, Asiatic Lillies Balloon Flowers, Stella d'Oro Daylilies, Double Freesias, Montbretias and Moerheim Beauty Heleniums.

Don't wait until the last minute and drive all over town only to find out that everyone is sold out of what you need. Place your order with RNA by the April 11th meeting. Delivery by the first week of May.

Community Updates

202-204 Ogden Avenue: Construction remains halted. The planning department has received an application for variances. The plans reflect that there will be no fourth floor and 13 units instead of 17 Units. A hearing date with the Planning Board has not been set.

Missing Park Swings: The Parks Department has removed the swings from the playground in the park because of a safety recall. Once the problem is fixed the swings will be put back.

RNA MEETING

"Only in Jersey City, the Odd, the Strange, the Mysterious"

Documentary photographer, Leon Yost will present a slide talk of peculiar Jersey City Phenomena. Inexplicable lights emanating from a high church steeple, a tiny Myan fortress hidden deep in the marsh grass, and Mayor Hague's famous desk especially designed to receive "donations" are just a few examples from our fascinating town. Sponsored by the Jersey City Historical Project.

518-526 Palisade Ave.

Development Presentation:

Lee Levine Architects will be presenting plans for the residential development of the old firehouse — formally home of Tatak Philipino. Be sure to attend to voice your opinion.
